Menzeleev, R., Spiegel, S. and Hla, T.  
TITLE Sphingosine-1-phosphate as a ligand for the G protein-coupled  
receptor EDG-1  
J Biol. Chem. 273 (19), 12552-12555 (1998)  
MEDLINE 98155258  
COMMENT REVIEWED REFSEQ: This record has been curated by NCBI staff. The  
reference sequence was derived from AF233365.1, M31210.1.  
On Feb 21, 2001 this sequence version replaced gi:4503454.  
Summary: The protein encoded by this gene is structurally similar  
to G protein-coupled receptors and is highly expressed in  
endothelial cells. It binds the ligand sphingosine-1-phosphate  
with high affinity and high specificity, and suggested to be  
involved in the processes that regulate the differentiation of  
endothelial cells. Activation of this receptor induces cell-cell  
adhesion.  
COMPLETENESS: complete on the 3' end.
